The GX-4000D represents the Akai Electric Company's re-introduction of this famous machine. Previously known as the 4000DS and sold throughout the early 1970s, the original model was an unpretentious tape recorder that provided many people with their first taste of recording but, unfortunately, the machine was withdrawn from the market. Now after an absence of some years, Akai have responded to the growing interest in home recording by re-introducing the new machine as the GX-4000D.

*Akai manuals, schematics and brochures - Hifi Manuals*  
Akai 4000DS Mk2 machines where manufactured circa 1976-1978 and they recorded and played back giving excellent results (due to the 1 micron gap heads). The Mk 2 models were the successor to the 4000DS (circa 1972-1976) which in its turn was a successor to the famous 4000D (circa 1970-1972) with several improvements.
