Asean Guideline On Stability Study

This guideline addresses the information to be submitted during application for marketing authorization/registration and variations of drug products in ASEAN Member States including examples of a protocol of stability study, a report format, reduced design and extrapolation of data, and examples of types, thickness and permeability coefficient which are covered in Annexes.

ASEAN GUIDELINE ON STABILITY STUDY OF DRUG PRODUCT (R1)

This guideline addresses the information to be submitted during application for marketing authorization/registration and variations of drug products in ASEAN Member States including examples of a protocol of stability study, a report format, reduced design and extrapolation of data, and examples of types, thickness and permeability coefficient which are covered in Annexes.

ASEAN GUIDELINE ON STABILITY STUDY OF DRUG PRODUCT

Stability data should be provided for batches of the same formulation and dosage form in the container closure system intended for marketing. ASEAN Guidelines on Stability Study and Shelf-Life of Traditional Medicines. 4 of 21 Version 1.0. Stability data from at least two batches would be required, derived either from pilot scale, primary scale, production scale or their combination. The manufacturing process of batches used in stability studies should simulate that of production batches ...

The Online Books Page: Maintained by the University of Pennsylvania, this page lists over one million free books available for download in dozens of different formats.

Asean Guideline On Stability Study Of Drug Product Version

Stability studies of the pharmaceutical drug should be done according to the climatic conditions of the country. According to the ICH guidelines for stability studies, the climate of the world is divided into five different zones.

Climatic Zones for Stability Studies : Pharmaceutical ...

4 ICH Q5C - Stability testing of Biotechnological / Biological products ICH guidelines on stability □ Q1A - Stability testing for new drug substances and products (R2 - 2003) □PARENT GUIDELINE. Defines the stability data package for registration of a new molecular entity as drug substance/drug product.

ICH Q5C Stability testing of Biotechnological / Biological ...

Stability studies should include testing of stability-indicating attributes of the API, i.e. those that are susceptible to change during storage and are likely to influence quality, safety and/or efficacy. The testing should cover, as appropriate, the physical, chemical, biological and microbiological attributes.

Annex 10 - ICH

In cases of variations which require generation of stability data on the finished product or the active substance, the stability studies required, including commitment batches, should always be continued up to the approved shelf-life / retest period and the authorities should be informed immediately if any problems with the stability appear during storage, e.g. if outside specification or potentially outside specification.
